Challenge #11: How Tos

1.

```css
.search-bar {
    width: 200px;
    margin-left: 20px;
}
```

```html
<div class="nav-links">
    <ul>
        <li>
            <input type="text" class="search-bar" placeholder="Search...">
        </li>
    </ul>
</div>
```

2.

```html
<div class="course">
    <select id="difficulty-filter">
        <option value="all">All Difficulty Levels</option>
        <option value="beginner">Beginner</option>
        <option value="intermediate">Intermediate</option>
        <option value="advanced">Advanced</option>
    </select>

    <select id="category-filter">
        <option value="all">All Categories</option>
        <option value="web">Web Development</option>
        <option value="data">Data Science</option>
    </select>

</div>
```

```html
<script>

const difficultyFilter = document.getElementById('difficulty-filter');
const categoryFilter = document.getElementById('category-filter');

</script>
```

3.

```html
<div class="course-col">
    <h3>HTML Basics</h3>
    <div id="html-editor" class="code-editor">

        <textarea></textarea>
    </div>
</div>
```

```css
.code-editor {
    height: 200px;
}
```

4.

```html
<div class="course-col">
    <div class="comments-section">
        <h3>User Comments</h3>
    </div>
</div>
```

```css
.comments-section {
    margin-top: 30px;
```

5.

```html
<div class="nav-links">
    <ul>
        <li>
            <a href="/login">Login</a>
        </li>
        <li>
            <a href="/favorites">Favorites</a>
        </li>

    </ul>
</div>
```
